SUMMARY

Full Stack Developer with 4+ years building production-grade SaaS products, internal tools, and client applications. Experienced across the full lifecycle — from architecture and backend APIs to frontend UI and third-party integrations. Currently exploring AI-native product development with RAG pipelines, vector databases, and LLM streaming.

EXPERIENCE

- Albearoti Solutions**

Team Lead / Full Stack Engineer

Oct 2024 — Aug 2026

 - Architected and led development of Bazark, a multi-role Arabic-first e-commerce marketplace
 - Built admin dashboards, buyer-seller workflows and REST APIs across web, seller and admin surfaces
 - Built CI/CD pipelines in Azure DevOps; ran the platform on Azure App Services with Key Vault and Front Door
 - Managed the engineering team and translated business requirements into software
- AICAN Private Limited**

Software Development Engineer

May 2023 — Sep 2024

 - Developed full-stack features for manufacturing and MSME clients using the MERN stack
 - Built performant user interfaces and backend APIs across internal tools and client products
 - Integrated real-time data pipelines and third-party services
- BrightIntern**

Frontend Development Intern

Feb 2023 — May 2023

 - Built reusable frontend components for a community web platform
 - Improved performance and fixed UI/UX issues, collaborating with senior developers

PROJECTS

- MeetMind**

paritbhardwaj.in/projects/meetmind

AI meeting assistant — a note-taker bot joins the call, transcribes it, and turns the transcript into summaries, action items and a RAG chat over the whole meeting history. Action items sync to Jira, Trello and Asana.

Next.js · React · TypeScript · Express · Prisma · PostgreSQL · ChromaDB · Groq · Stripe · Turborepo
- Bazark**

paritbhardwaj.in/projects/bazark

Arabic-first multi-vendor marketplace for Saudi Arabia — RTL storefront, live auctions, AI-assisted listings via Azure OpenAI vision, and escrow checkout through Tamara and PayTabs, behind a 102-permission admin console.

Next.js · TypeScript · Express · MongoDB · Redis · BullMQ · Elasticsearch · React Native · Azure
- Sherly Jewels ERP**

paritbhardwaj.in/projects/sherly-jewels

Jewellery ERP running the whole floor — customer orders, CAD approvals, stone and metal allocation, factory job cards and employee management. Turborepo with shared TypeScript types and Zod schemas across web and API.
